- Paradigm shift Paradigm Shift

When organisations think creatively, they gain a competitive advantage

Teambuilding delivers a short and punchy, fun session that imparts the benefits of smashing existing limited beliefs (paradigms) and powerfully explores the possibilities of "in a world where everything is possible, how does your company achieve ultimate success". The outcomes never cease to amaze.

Quite often the main barriers to an organisation reaching peak performance are not external, but internal. Market and competitor activity is usually uncontrollable, however if you want to be a market leader and pace-setter you need to think outside the square.

Teambuilding delivers a short and powerful program that unleashes creative ideas for growth from existing resources - staff. Maximise your organisations potential by smashing your current limited belief systems (paradigms). If you can imagine the seemingly impossible you are on the way to making it reality.

A powerful one hour session involves the watching of a powerful twenty minute video which imparts the value of being able to make a Paradigm Shift, followed by structured free thinking and feedback. Can you afford not to miss the possibilities this session will uncover?

Game plan

This program will keep you guessing right to the end...

Emotions run high leading up to the climactic last minutes of this event. There is the thrill of victory and the agony of defeat! And no one knows the winner until the final few excruciating seconds.

Overview:

Which activities will your team choose in their strategy to win? Who dares win, what does it take to succeed?

The Game Plan is an exciting, fast paced program where teams choose the activities they play. In return they receive money from which they can then play in a theatrical outdoor live casino with roulette wheel to see if their hard earned money can return extraordinary returns.+more
