

## High flyers

Experience the safety and energy of getting your team off the ground...into new heights on a High Ropes Course.

High Ropes courses are located throughout Australia. Of solid construction, either in a natural setting or of artificial construction, they allow users to experience the thrill of height, in a safe controlled environment.

All courses are different and could include challenges such as climbing walls where three climbers can climb at once:

High Wires, Beam, Leap of Faith, Flying Fox and lots more.

All activities can be facilitated in accordance to group size, outcomes and objectives. The environment is controlled and enjoyed by majority needs, with a strong sense of shared outcomes and experience. However, it's also a great thrill for those who need that 'edge.' Escape the conference room!

Why do groups do the course?

- To recommit your passions, focus and motivations
- To remind you of the risk taking capabilities you had... when you were a kid!
- To set new personal goals, team goals, business goals and standards
- To have fun in a safe managed environment
- To awaken team capabilities
