

## Urban challenge

You'll need the skill range of your whole team to win this one!

Groups are divided into teams and participating through a range of team challenge activities, the scores add up to illustrate a winning team.

Teams receive Urban Challenge instructions and a Scavenger Hunt Map of the local area. Located on the map are various activities to choose from all of which are at different locations.

Teams need to strategise and decide which activities to do as some have more points than others due to level of difficulty or time involved.
